

Taxation (UK) (F6)

Exams in the period 1 April 2015 to 30 June 2016

This syllabus and study guide is designed to help with planning study and to provide detailed information on what could be assessed in any examination session.

THE STRUCTURE OF THE SYLLABUS AND STUDY GUIDE

Relational diagram of paper with other papers

This diagram shows direct and indirect links between this paper and other papers preceding or following it. Some papers are directly underpinned by other papers such as Advanced Performance Management by Performance Management. These links are shown as solid line arrows. Other papers only have indirect relationships with each other such as links existing between the accounting and auditing papers. The links between these are shown as dotted line arrows. This diagram indicates where you are expected to have underpinning knowledge and where it would be useful to review previous learning before undertaking study.

Overall aim of the syllabus

This explains briefly the overall objective of the paper and indicates in the broadest sense the capabilities to be developed within the paper.

Main capabilities

This paper's aim is broken down into several main capabilities which divide the syllabus and study guide into discrete sections.

Relational diagram of the main capabilities

This diagram illustrates the flows and links between the main capabilities (sections) of the syllabus and should be used as an aid to planning teaching and learning in a structured way.

Syllabus rationale

This is a narrative explaining how the syllabus is structured and how the main capabilities are linked. The rationale also explains in further detail what the examination intends to assess and why.

Detailed syllabus

This shows the breakdown of the main capabilities (sections) of the syllabus into subject areas. This is the blueprint for the detailed study guide.

Approach to examining the syllabus

This section briefly explains the structure of the examination and how it is assessed.

Study Guide

This is the main document that students, tuition providers and publishers should use as the basis of their studies, instruction and materials. Examinations will be based on the detail of the study guide which comprehensively identifies what could be assessed in any examination session. The study guide is a precise reflection and breakdown of the syllabus. It is divided into sections based on the main capabilities identified in the syllabus. These sections are divided into subject areas which relate to the sub-capabilities included in the detailed syllabus. Subject areas are broken down into sub-headings which describe the detailed outcomes that could be assessed in examinations. These outcomes are described using verbs indicating what exams may require students to demonstrate, and the broad intellectual level at which these may need to be demonstrated (*see intellectual levels below).

INTELLECTUAL LEVELS

The syllabus is designed to progressively broaden and deepen the knowledge, skills and professional values demonstrated by the student on their way through the qualification.

The specific capabilities within the detailed syllabuses and study guides are assessed at one of three intellectual or cognitive levels:

Level 1: Knowledge and comprehension

Level 2: Application and analysis

Level 3: Synthesis and evaluation

Very broadly, these intellectual levels relate to the three cognitive levels at which the Knowledge module, the Skills module and the Professional level are assessed.

Each subject area in the detailed study guide included in this document is given a 1, 2, or 3 superscript, denoting intellectual level, marked at the end of each relevant line. This gives an indication of the intellectual depth at which an area could be assessed within the examination. However, while level 1 broadly equates with the Knowledge module, level 2 equates to the Skills module and level 3 to the Professional level, some lower level skills can continue to be assessed as the student progresses through each module and level. This reflects that at each stage of study there will be a requirement to broaden, as well as deepen capabilities. It is also possible that occasionally some higher level capabilities may be assessed at lower levels.

LEARNING HOURS AND EDUCATION RECOGNITION

The ACCA qualification does not prescribe or recommend any particular number of learning hours for examinations because study and learning patterns and styles vary greatly between people and organisations. This also recognises the wide diversity of personal, professional and educational circumstances in which ACCA students find themselves.

As a member of the International Federation of Accountants, ACCA seeks to enhance the education recognition of its qualification on both national and international education frameworks, and with educational authorities and partners globally. In doing so, ACCA aims to ensure that its qualifications are recognized and valued by governments, regulatory authorities and employers across all sectors. To this end, ACCA qualifications are currently recognized on the education frameworks in several countries. Please refer to your national education framework regulator for further information.

Each syllabus contains between 23 and 35 main subject area headings depending on the nature of the subject and how these areas have been broken

down.

GUIDE TO EXAM STRUCTURE

The structure of examinations varies within and between modules and levels.

The Fundamentals level examinations contain 100% compulsory questions to encourage candidates to study across the breadth of each syllabus.

The Knowledge module is assessed by equivalent two-hour paper based and computer based examinations.

The Skills module examinations F5-F9 are all paper based three-hour papers containing a mix of objective and longer type questions. The *Corporate and Business Law* (F4) paper is a two-hour computer based objective test examination which is also available as a paper based version from the December 2014 examination sitting.

The Professional level papers are all three-hour paper based examinations, all containing two sections. Section A is compulsory, but there will be some choice offered in Section B.

For all three hour examination papers, ACCA has introduced 15 minutes reading and planning time.

This additional time is allowed at the beginning of each three-hour examination to allow candidates to read the questions and to begin planning their answers before they start writing in their answer books. This time should be used to ensure that all the information and exam requirements are properly read and understood.

During reading and planning time candidates may only annotate their question paper. They may not write anything in their answer booklets until told to do so by the invigilator.

The Essentials module papers all have a Section A containing a major case study question with all requirements totalling 50 marks relating to this case. Section B gives students a choice of two from three 25 mark questions.

Section A of both the P4 and P5 Options papers contain one 50 mark compulsory question, and

Section B will offer a choice of two from three questions each worth 25 marks each.

Section A of each of the P6 and P7 Options papers contains 60 compulsory marks from two questions; question 1 attracting 35 marks, and question 2 attracting 25 marks. Section B of both these Options papers will offer a choice of two from three questions, with each question attracting 20 marks.

All Professional level exams contain four professional marks.

The pass mark for all ACCA Qualification examination papers is 50%.

GUIDE TO EXAMINATION ASSESSMENT

ACCA reserves the right to examine anything contained within the study guide at any examination session. This includes knowledge, techniques, principles, theories, and concepts as specified.

For the tax papers, ACCA will publish *examinable documents*, or tax rates and allowances tables, once a year to indicate exactly what legislation could potentially be assessed within identified examination sessions. These should be read in conjunction with the information below.

For **UK** tax papers, examinations falling within the exam year 1 April to 31 March will examine the Finance Act which was passed in the previous July. I.e. Exams falling in the period 1 April 2015 to 31 March 2016 will examine the Finance Act 2014. The June 2016 exam will also examine the Finance Act 2014.

For **SGP** tax papers, examinations falling within the year 1 April to 31 March will be based on legislation passed before the previous 30 September. I.e. examinations falling in the year 1 April 2015 to 31 March 2016 will be based on legislation passed by 30 September 2014.

For **MYS** tax papers, examinations falling within the year 1 October to 30 September will be based on legislation passed before the previous 31 March. I.e. examinations falling in the year 1 October 2014 to 30 September 2015 will be based on legislation passed before the previous 31 March 2014.

For **CYP** tax papers, June and December examinations will be based on regulation or legislation published in the Official Gazette of the Republic of Cyprus ("the Gazette") on or before 30 September. I.e. June and December 2015 papers will be based on regulation or legislation published in the Official Gazette of the Republic of Cyprus ("the Gazette") on or before 30 September 2014.

For **CZE** tax papers, December and June examinations will be based on legislation passed before the previous 31 May. I.e. December 2014 and June 15 papers will be based on legislation in force at 31 May 2014..

For **VNM** tax papers, June and December examinations will be based on legislation passed before the previous 31 December. I.e. June and December 2015 papers will be based on legislation passed by 31 December 2014.

Tax papers for the following variants:

BWA, CHN, HUN, HKG, IRL, LSO, MWI, MLA, POL, PKN, ROM, RUS, ZAF, ZWE.

The June and December examinations will be based on legislation passed before the previous 30 September. I.e. June and December 2015 papers will be based on legislation passed by 30 September 2014.

Syllabus

AIM

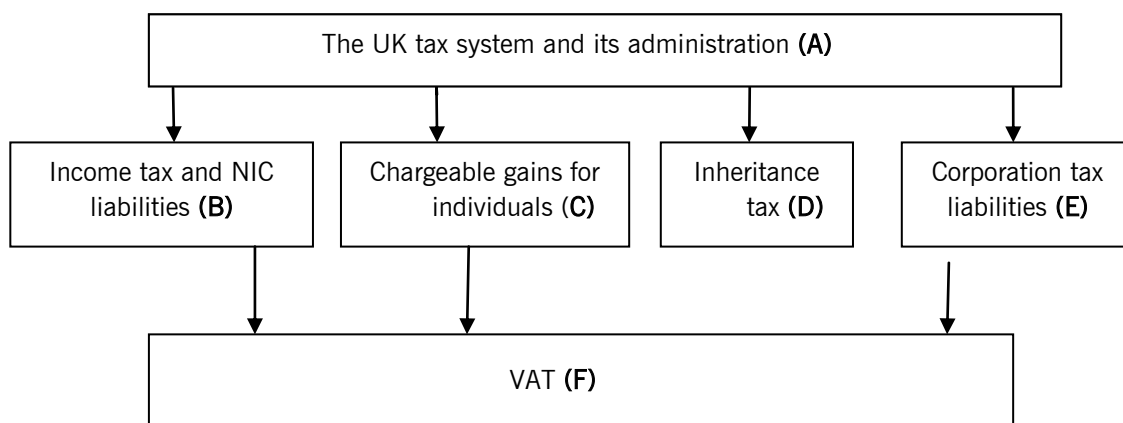

To develop knowledge and skills relating to the tax system as applicable to individuals, single companies, and groups of companies.

MAIN CAPABILITIES

On successful completion of this paper candidates should be able to:

- A** Explain the operation and scope of the tax system and the obligations of tax payer and/or their agents and the implications of non-compliance
- B** Explain and compute the income tax liabilities of individuals and the effect of national insurance contributions (NIC) on employees, employers and the self-employed
- C** Explain and compute the chargeable gains arising on individuals
- D** Explain and compute the inheritance tax liabilities of individuals
- E** Explain and compute the corporation tax liabilities of individual companies and groups of companies
- F** Explain and compute the effects of value added tax on incorporated and unincorporated businesses

RELATIONAL DIAGRAM OF MAIN CAPABILITIES

RATIONALE

The syllabus for Paper F6, *Taxation*, introduces candidates to the subject of taxation and provides the core knowledge of the underlying principles and major technical areas of taxation as they affect the activities of individuals and businesses.

Candidates are introduced to the rationale behind – and the functions of – the tax system. The syllabus then considers the separate taxes that an accountant would need to have a detailed knowledge of, such as income tax from self-employment, employment and investments, the corporation tax liability of individual companies and groups of companies, the national insurance contribution liabilities of both employed and self-employed persons, the value added tax liability of businesses, the chargeable gains arising on disposals of investments by both individuals and companies, and the inheritance tax liabilities arising on chargeable lifetime transfers and on death.

Having covered the core areas of the basic taxes, candidates should be able to compute tax liabilities, explain the basis of their calculations, apply tax planning techniques for individuals and companies and identify the compliance issues for each major tax through a variety of business and personal scenarios and situations.

SUMMARY OF CHANGES TO F6 (UK)

ACCA periodically reviews its qualification syllabuses so that they fully meet the needs of stakeholders such as employers, students, regulatory and advisory bodies and learning providers.

Some of the syllabus areas have been reordered as shown in Table 1 below:

Table 1 – Reordering within F6 (UK)

Section and subject area	Syllabus content
Reordering of syllabus areas	The syllabus areas have been reordered so that syllabus area A covers the UK tax system and its administration, B covers income tax and NIC liabilities, C covers chargeable gains for individuals, D covers inheritance tax, E covers corporation tax (including chargeable gains) and F covers VAT.
Enlarged syllabus area A	Syllabus area H (the obligations of the taxpayer and/or their agents) has been combined with syllabus area A to create an enlarged syllabus area A (the UK tax system and its administration).
National insurance	National insurance has been moved and is now included in syllabus area B (Income tax and NIC liabilities)
E3 Chargeable gains for companies	Chargeable gains have been split between individuals (syllabus area C) and companies (syllabus area E3 Corporation tax)

The main areas that have been added to the syllabus are shown in Table 2 below:
